COMPLETE LANDSCAPING SOLUTIONS

When choosing a Landscaping company, hiring one company who can complete all trades is an absolute must for any home outdoor renovation. This will take the stress out of hiring and organising multiple tradies.

Wright Brothers offer complete landscaping solutions from our experienced in-house team. We can help plan, design, build and finish your entire outdoor space with the highest quality building materials and with the highest possible craftsmanship.

Wright Brothers Landscaping are known for our exceptional craftsmanship, reliability and incredible value. 100% Australian owned and operated, we service Perth residential and commercial clients.

Choosing a professional landscaping team means you save time, save money and reduce the risk things going wrong with your outdoor renovation. We stand behind every job we do, big or small.

PERTH LANDSCAPING SPECIALISTS FOR 7+ YEARS

Always choose an established, Australian owned company who has extensive experience in the landscaping services they offer.

For more than 7 years, Wright Brothers Landscaping have been transforming gardens and outdoor spaces into dream outdoor areas for Perth families. We can help plan, design, build and finish your entire outdoor space with the highest quality materials, turf and soils.

OUR LANDSCAPING SERVICES

Always consider what your Landscaper can do, can they complete all required services? or do they outsource their work to third party tradespeople? Wright Brother's team of highly skilled trades-people complete all work, we don't outsource and when you call, we come. We offer a complete range of landscaping services including limestone retaining walls, colorbond fencing, paving, bull nosing, real and artificial turf, reticulation and more.

LIMESTONE WALLS

PAVING

FENCING

GATES

TURF / LAWN & RETICULATION

ARTIFICIAL TURF

PLANNING YOUR OUTDOOR AREA

Start by thinking about how you might best use your outdoor space. Do you relax and unwind? Are you or your family active and play sport? Do you have pets? Are you a green thumb? or Does a low maintenance water-wise garden suit you best?

Once you have an idea about how you will best use your space then we can start to design your area and add all the right landscaping elements to create an outdoor space you will love spending time in.

Paving surfaces creates a highly durable, long lasting surface perfect for areas of high foot traffic, pools and patios.

CONSIDER WHAT SURFACES BEST SUIT YOUR OUTDOOR LIVING?

If your areas get a high level of foot traffic, paving is often the best choice. Pavers are highly durable and are available in a wide range of sizes, materials, textures and colours.

Speak with WBL about a paving solution today.

There is no substitute for the feeling of soft turf underneath your toes. Whether you choose real or artificial turf, creating a green space helps to create a natural outdoor feel your family will love being on. Great for the kids to play on, sport and for pets.

GO GREEN WITH REAL OR ARTIFICIAL TURF

Every home renovation should consider one or more green spaces. Bringing nature into your outdoor space creates a calming and cooling effect.

Lawn is perfect for recreation and sport as well as providing places where you, your kids and your pets can spend time outside the home. Lawn has a cooling effect of your outdoor. On a hot summer day, a well maintained lawn will be at least 17 degrees cooler than asphalt and 10 degrees cooler than bare soil.

Lawn maintenance requires a regular watering plan so consider getting a water-wise reticulation system installed by your Landscaper or if you want to be very conservative, consider artificial turf instead.

CREATE PRIVACY & SECURITY WITH CLEVER FENCING

Once size and one solution definitely doesn't fit all. Always work with a Landscaper who can provide a wide range of fencing solutions so you can create the perfect balance between privacy, security, visibility, air flow and light.

Fencing areas can create more privacy and security but sometimes you don't want to completely block off visibility, light and airflow. Boxing in areas may make them feel much smaller than they really are, in these cases, considering Aluminum slat infills for fencing or gates is a great idea. WBL offer a huge range of fencing and can even create a combination of materials to build your perfect fence.

Low maintenance, water-wise home gardens have become increasingly popular in Perth's Warm Mediterranean climate, known for its hot dry summers

WHAT OUR CUSTOMERS SAY ABOUT WRIGHT BROTHERS LANDSCAPING

Always choose a trusted Landscaper with a proven track record from local Perth homeowners. Wright Brothers have more than 20+ 5 Star reviews. Read what our clients say below or read all our reviews on the Wright Brothers Facebook page.

HARRISON WILLIAMS - PERTH, WA

"Wright Brothers Landscaping did an amazing job paving our back yard. The team were very kind and easy to chat with, informative and very efficient in their work. Despite having no side access to the work area, they showed incredible respect and care for the inside of my house when transporting equipment and materials out the back, and even swept throughout the day to clean up the worst of the mess. The small gestures like this are why it is very easy to recommend this company to anyone with landscaping needs, let alone the amazing finished product!"

DIANE DWYER - PERTH, WA

"Rikki & all the guys did an amazing job of our pool area - paving, planter box & glass fencing. They were all a very courteous & friendly group of guys & nothing was too much trouble for them. I would recommend Wright Brothers Landscaping for anyone thinking of getting any landscaping done - big or small as you won't be disappointed."

SHERYL HORSMAN - PERTH, WA

"I cannot recommend highly enough Rikki and the team at Wright brothers landscaping. They are so super efficient and tidy. We had outstanding results for my sons new build in The Edge. Thank you so much guys you made everything really easy for us. We appreciate everything you have done."

CHOOSE A LANDSCAPER WHO RESPECTS YOUR HOME & PROPERTY

Always trust your home and property to people you can trust. Only work with Landscaping professionals who treat your home with care and respect your privacy.

The Wright Brothers team always takes care to ensure we are mindful of your home and property ensuring we don't create mess or damage while building your dream outdoor area. We respect your privacy and do not invite third party or unknown subcontractors into your home.

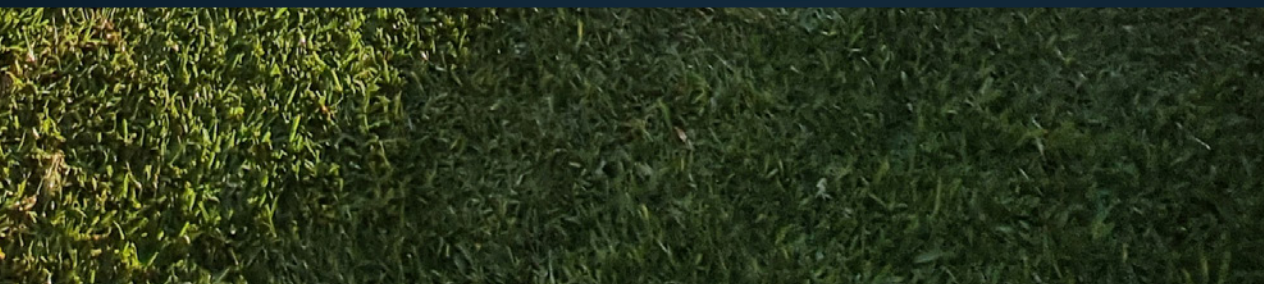

We can finish of your pool renovation by adding bull nosing, pavers, pool or glass fencing, turf and limestone feature-work.
